Your Vision, Our Services: Making Dreams Reality

Mobile App Development

Due to the prevalence and development of smartphones over the past few years, smart applications have gained a unique place in people's lives.

Staff Augmentation

A company may desire to expand its technical team but wish to avoid taking on the additional responsibilities associated with growing its workforce.

Solution Architecture & PoC

Most businesses today are turning to the digital world to solve existing challenges, expand their market, and meet customer needs.

Web Development

In today's digital age, a website is not just a nice-to-have, it's a must-have for any business looking to reach and engage with customers online.

The Discovery Phase Of a Software Project

Currently, many software projects face high risks and costs due to failure to pass the discovery phase successfully.

Maintenance and Support Services

By applying the best support practices, our profound tech knowledge and deep experience, you can be sure that everything is under full control whenever you need it.

• Description

- The PMPEast LMS system, as a learning management system, specializes in the field of management and business. Professors and expert mentors can present their training courses on this intelligent platform. The platform is highly intelligent and evokes all the elements of a live training course for the student. The platform offers features allowing professors to integrate various teaching techniques, such as testing, student interaction, and practice, into their preferred learning scenario to attain the highest and optimal level of learning.

The screenshot displays the PMPEast LMS system interface. At the top, there is a navigation bar with a search icon and the text "دخول / تسجيل". The main header is dark blue with the PMPEast logo (Pishro Modirial Pisan Consulting) on the right. Below the header is a search bar with the text "يبحث" and a search button. To the right of the search bar are several filter buttons: "مشكلة", "منظم", "مستوى", "حالة", "مدرس", and "لغة". Below these are three buttons for language selection: "عربي", "إنجليزي", and "محمد الحكيم". The main content area is white and features a section titled "عدد الدورات: ١٥". Below this, there are four course cards, each with a title, a subtitle, and a description. The first card is titled "دورة برنامج اكسل مستوى متقدم" and includes the text "تعليم الاكسل من الصفر". The second card is titled "التحقيق في قضايا التأخير في المشروع" and includes the text "كل ما تحتاجه حول إدارة التأخيرات". The third card is titled "تعليم التسجيل واكمال PMP تطبيق امتحان" and includes the text "التسجيل في الامتحان بلغة بسيطة". The fourth card is titled "دورة التحضير لامتحان PMP المحدثه" and includes the text "حدث معلوماتك مع ECO2021". Each card also features the PMPEast logo and a small image of a person.

• Key Features

1. The professor can provide various forms of content (such as text, audio, video, and images);
2. Ability to arrange all types of assignments, exams, and tests;
3. The communication between professors and students can be done through video calls, text messages, and voice messages;
4. The professor can create flexible learning scenarios.
